Table 1. Description of changes from previous version of the document

Content

1. Introduction

In this phase, each sub-system would be tested for its functional features. i.e, MUW, PUW and LUW would be tested individually. The following sections are test results for testing of individual sub-systems for Phase 0.

2. Unit Testing

In this phase, each sub-system would be tested for its functional features. i.e, MUW, PUW and LUW would be tested individually. The following sections are test results for testing of individual sub-systems for Phase 0.

2.1 MUW

Req. Num	Test Case #	Phase	Test Description	P/F	Remarks
NF1.1	1	P0	Is Web portal working in Windows	PASS	
NF1.1	2	P0	Is Web portal working in Linux	PASS	
NF1.1	3	P0	Is Web portal working in Mac	PASS	
NF1.1	4	P0	Is Web portal working in IE browser.	PASS	
NF1.1	5	P0	Is Web portal working in Google Chrome	PASS	
NF1.1	6	P0	Is Web portal working in Mozilla Firefox	PASS	
NF1.1	7	P0	Is Web portal working in Safari	PASS	
NF1.2	8	P0	Is the system globally accessible Locations Selected-- Chalmers campus, Lindholmen campus, Residential apartments	PASS	Tested in campus, SGS apartments, CSB apartments.
F1.1	9	P0	Are all products visible in the site	PASS	
F2.1	10	P0	Are product details available	PASS	
F2.1	11	P0	Are products classified properly	PASS	
F2.2	12	P0	Is the portal accessible at all times	PASS	The website was accessed at varying times of the day...in the morning, afternoon, evening, late evenings and nights. And the site seems

Req. Num	Test Case #	Phase	Test Description	P/F	Remarks
					to be working fine at all time.
F2.2	13	P0	Is the user home page accessible home page at all times	PASS	
F2.3	14	P0	Does the portal have user activity tracking system	PASS	
F2.3	15	P0	Is Purchase order of User tracked by LUW	PASS	
F2.10	16	P0	Is a registration option available for the customer on the web portal	PASS	
F2.10	17	P0	Is the web portal available in all local languages including English, Swedish, French, Portuguese, and Canton Chinese Languages.	FAIL	The website seems to be working in English. But options for other languages are not visible.s

2.2 PUW

Req. Num	Test Case #	Phase	Test Description	P/F	Remarks
F3.1	1	P0	Is an order placed in MUW received by MUW.	PASS	
F3.2	2	P0	Is Placing of orders with the supplier working.	PASS	
F3.3	3	P0	Is a delivery note produced for an consignment	PASS	
F3.4	4	P0	Is financial system updated with data of every transaction	PASS	
F3.7	5	P0	Is database updated with product information	PASS	

2.3 LUW

Req. Num	Test Case #	Phase	Test Description	P/F	Remarks

F4.1	1	P0	Is a transporter booked for each order placed	PASS	
F4.1	2	P0	Is a transporter booking done based on the order delivery address	PASS	
F4.2	3	P0	Is a transporter booking done based on the cheapest possible transportation.	PASS	
F4.2	4	P0	Is delivery of the product reported correctly.	PASS	

2.4 Result

The system does all required functionality of Phase 0 and can be tracked with system and database log.

3. Integration Testing

Integration testing involves testing the whole system integrated including the subsystems MUW, PUW and LUW integrated and the overall system functionality would be tested. Integration testing for Phase 0 will be done for the following cases.

Test Case #	Phase	Test Description	P/F	Remarks
1	P0	Is an order placed in the GUI (MUW) being received by LUW and is a supplier selected accordingly.	PASS
